Wild And Wonderful Fleece Animals: With Full-Size Patterns For 20 Cuddly Critters

Synopsis

Includes full-size, fold-out patterns and templates for each of the 20 projects! Fleece is soft, warm, easy to work with, and simple to sew-requiring no lining or edge-finishing. Even brand-new sewers can make the perfect gift in a weekend, or less! This book provides easy step-by-step instruction to make a range of cuddly fleece creatures to keep or give away-in a variety of colors, textures, and patterns. From Simon's Snake and Peter Panda to Hanna Horse and Cindy Centipede, each of the 20 animals is featured in a full-size photograph, along with a variation in one or more colors or sizes. There are easy-to-follow line drawings and step-by-step text instruction for construction and assembly of each one. Linda adds her own creative touches to each of the simple shapes-decorative trims, bright appliques, and quick, secure closures. Full-size tissue patterns and templates are included for each of the projects. --This text refers to an out of print or unavailable edition of this title.

Book Information

Paperback: 112 pages

Publisher: Creative Publishing int'l; Pap/Cdr Re edition (April 1, 2011)

Language: English

ISBN-10: 1589235789

ISBN-13: 978-1589235786

Product Dimensions: 8 x 0.2 x 11 inches

Shipping Weight: 1 pounds

Average Customer Review: 4.0 out of 5 stars See all reviews (94 customer reviews)

Customer Reviews

I am so frustrated right now I could scream. I've just spent over an hour trying to print out ONE pattern in original size. Who has a printer at their house that can print an 11 X 17 piece of paper????? Not me, that's for sure. I finally had to pull the PDF file into Photoshop, then print all four pages piece by piece - guessing at what settings I should use to end up with a complete page that I could tape together. (If anyone out there knows an easier way, PLEASE let me know!!) If you have access to an 11X 17 printer, this is probably a great book. The animals are really cute and the

instructions appear to be clear, but it took so darned long to print the pattern that now I don't feel like working on my project so I'm not sure about that yet. I'll update my review after I've made a few animals, if I can force myself to go through the time-waster of printing the darned patterns out. I suppose I could take them somewhere and pay to have them printed, but considering I've purchased dozens of online patterns that can be printed on regular letter size paper then easily taped together, it's ridiculous that the ones for this book take so much effort. I wish I had read through more of the reviews before purchasing this. I might have still gotten the book, but at least I would have been prepared for the headache of printing the patterns. Update: I have now cut out quite a few of the patterns and have sewn several. The animals turned out nicely, but the instructions are NOT clear. As another reviewer said, you definitely have to look closely at the pictures. It would also have been nice if the author had given descriptions of the exact eyes that were used to make the animals in the pictures. I really liked the ones shown and wanted to use the same ones in most cases.
